

LS Series

Lazy Susan Product Accumulators

Designed to collect small packages, shrink-wrapped products, and finished goods as they exit the production line. They provide a simple, space-saving alternative to a discharge conveyor, especially for smaller items that may tip, bunch, or fall through conveyor gaps. The smooth rotating turntable keeps products organized and within easy reach for packing, inspection, or staging.

KEY FEATURES

- Variable speed operation from 0–12 RPM
- 3" deep turntable top
- Adjustable leveling legs from 32" to 39"
- Supports up to 200 lbs.
- Standard 110V, 5 amp power
- Powder-coated frame

OPTIONS

- Stainless steel frame
- 36", 48", or 60" diameter turntable

Available in 36", 48", and 60" turntable diameters to fit different production layouts and accumulation needs.
