

PKG-SYS INC.

1622MK

SEMI-AUTOMATIC L-SEALER

Description

The 1622MK is a heavy-duty, production-grade L-sealer built for continuous operation — capable of running up to two shifts per day. Its rugged steel frame, cast aluminum seal head, and Micro Knife sealing technology deliver consistent, clean seals with long service life and minimal maintenance. Operating speeds reach 10–15 packages per minute, making it an ideal solution for medium- to high-volume packaging lines.
